

# Presentations of FAWN, ORANGE, & RED Varieties

Club Standards Committee examines the REDs to determine if they meet basic guidelines for a first presentation. The club committee only does this for the very first presentation of a new variety.

Committee members discuss the belly color on the senior with COD presenter, Marcia Hinkelmann.

## FAWNS

**Bunnie Turley** presented FAWNs before the ARBA Standards Committee. The 9 judges talk with Bunnie after their examinations. Unfortunately, one senior had a spot in one eye, giving FAWNs a 3rd FAIL. The COD passes to Debbie Russell. Bunnie deserves our thanks and admiration for her work and efforts.

# ORANGES

**HAPPY  
DEBBIE  
RUSSELL!!**

ORANGES got first PASS. Friend, Brian Caudill, shares her happiness. FYI: ARBA granted Brian COD for Chocolate/Lilac Otters.

# REDS

**Marcia Hinkelmann** talks with the Standards Committee after the examinations. The committee assessed the RED a first FAIL due to a senior buck having a white instead of a creamy belly color. They also suggested the smut on the ears and noses be cleaned up. The type was there; it is color that needs more work. Look for REDS at the 2009 ARBA convention in San Diego.
